

## Early Bird Ending

# Gain Insights into Canada's Broader Role in Global Healthcare Product Development

Still looking for a reason to attend?  
**WE HAVE 4 OF THEM RIGHT HERE...**

### ONE Place to Learn, Share, Network, and Grow

Don't miss this exclusive opportunity to discuss and analyze the latest challenges and opportunities at this year's DIA **DIA Canadian Annual Meeting**, taking place October 19 – 20. Develop deeper insights into Canada's broader role in global healthcare product development and international work sharing and partnerships.

### TWO Brilliant Featured Speakers

Plus so many others to hear and learn from.

**Elizabeth Toller, MA**, Associate Director General, Policy, Planning, and International Affairs, Health Canada, Canada  
Elizabeth Toller is an experienced policy specialist and public sector leader in the Government of Canada.

**Oxana Iliach, PhD**, Sr. Director, Regulatory Strategy, Certara Synchrogenix, Canada  
Oxana Iliach is a well-known regulatory expert working to help accelerate and assure the approval of and access to medical innovations.

### THREE Tracks of Learning

What makes this meeting so special? It provides attendees the opportunity to choose among three distinct tracks of information: **Regulatory**, **Clinical**, and new this year, **Pharmacovigilance**. Previously a stand-alone meeting, we've added the pharmacovigilance track to the lineup to provide additional insights, education and knowledge sharing for professionals working in the field in Canada.

### FOUR Months of Access

Not only can you attend this virtual meeting on any device, from anywhere in the world, but you can also **watch sessions on-demand for four months after the meeting ends**. That's four months to experience all the sessions, all the speakers, and all three tracks of cutting-edge content!
