

Creating Differentiation When the Whole Purpose is Being Biosimilar

You've been busy; we get it. And for whatever reason you didn't register for the Early Bird or the Advanced Rate savings. But there's still time to sign up now and get all the benefits that this amazing **Biosimilars Conference, October 5-6**, has to offer. Just to remind you:

ALL-STAR SPEAKERS

Insights and experience from more than **30 biosimilars authorities** from healthcare, regulatory agencies, and industry, including a Keynote Address by **Peter Stein, MD, Director of the Office of New Drugs with the FDA**.

A CUSTOM-TAILORED PROGRAM

If you're a **senior-level professional and decision-maker in any business, scientific, or regulatory facet of biosimilars**, this conference is right in your sweet spot. Miss it and you miss a lot.

100% VIRTUAL

Your registration entitles you not only to the live events but also to **four months of on-demand access**. There's so much rich content, you'll want to revisit sessions again and again.

You don't want to miss this!

[REGISTER TODAY](#)

Maximize Your Experience With a Pre-Conference Short Course, October 4.

A great way to get the most out of the conference itself, our Short Courses provide smaller, more intimate settings to enable collaborative, peer-to-peer exchanges under the instruction of global experts. Join us!

Differentiating Your Biosimilar From the Crowd

Cecil J. Nick, MS, FTOPRA, Vice President (Technical), Parexel Consulting
Wyatt Gotbetter, Partner, Health Advances
